

ENOC PROTEC 3W + SUPER 4T

PRODUCT DESCRIPTION

ENOC PROTEC 3W SUPER 4T is a modern high technology based 4T engine oil exceeding the latest API SG/CF performance specification. Developed to provide best protection for use in modern 3 wheelers fitted with 4 stroke air cooled motorcycle engines. It is suitable for all types of driving conditions (city, highway and harsh) and is available in 20W- 50 viscosity grade, to meet market conditions

APPLICATIONS

- ◆ 3 wheelers with Four stroke motorcycle engines where motor oils are recommended
- ◆ High performance normally aspirated 4T gasoline engines

PERFORMANCE STANDARDS

ENOC PROTEC 3W + SUPER 4T meets and exceeds the following OEM and International Specifications:
API SG/CF

Always follow equipment manufacturer's recommendations for required lubricant performance levels and oil drain intervals.

BENEFITS

ENOC PROTEC 3W + SUPER 4T provides:

- ◆ Excellent Protection to engines for load, high temperature operations as in 3-Wheelers
- ◆ Extended life using special additive technology for engine and wet clutch operation
- ◆ Helps keep engine clean for smoother operations
- ◆ Protects critical engine component
- ◆ Year-round engine protection and performance

Technical Data	
SAE Grade	20W-50
Kinematic Viscosity	
Colour	Red
Odour	Sweet Fruity odour
mm ² /s @ 40°C	170
mm ² /s @100°C	18.85
Viscosity Index	125
TBN, mg of KOH/g	8.2
Flash Point, COC, °C	241
Pour Point, °C	-24
Product Code	213053

HEALTH AND SAFETY, ENVIRONMENT The information on this product is available in the ENOC Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information, we recommend you review the MSDS. Handled correctly there are no special precautions suggested.
