

ENOC PROTEC 2T

PRODUCT DESCRIPTION

ENOC PROTEC 2T is an economical quality two-stroke engine oil that has been developed for small to medium size air-cooled two-stroke engines used in motor-cycles, scooters and three wheeler light passenger vehicles used in city traffic. Formulated with a modern low ash additive system which offers protection against scuffing of piston rings and liner wear by minimising piston ring deposits.

APPLICATIONS

- ◆ All makes of two-stroke engines
- ◆ Three wheeler light passenger vehicles powered by two-stroke engine
- ◆ Chainsaws and in portable equipment powered by two-stroke engine

PERFORMANCE STANDARDS

PROTEC 2T meets and exceeds the following International specification:
API TA

Always follow equipment manufacturer's recommendation for required lubricant performance levels.

BENEFITS

PROTEC 2T provides:

- ◆ Minimum engine wear
- ◆ Control of engine deposits to prevent pre-ignition
- ◆ Consistent power output
- ◆ Longer engine service life

Mix PROTEC 2T with petrol

PROTEC 2T mixes readily with petrol as a "premix" and is equally suitable for metered lube injection systems. The best advice on mixing is to:

- ◆ Fill the tank half with petrol
- ◆ Pour in the correct amount of oil
- ◆ Add the remainder of petrol
- ◆ Follow the manufacturers' recommendations for mixing oil to petrol ratios.

Technical Data*	
Kinematic Viscosity	
mm ² /s @ 40°C	60.02
mm ² /s @ 100°C	8.46
Flash Point, PMCC, °C	112
Sulphated Ash %m	0.02
Pour Point, °C	-21
Product Code	220005

*The information prepared provides the typical properties that are considered as representative. Some variation which will not affect performance is possible

HEALTH AND SAFETY, ENVIRONMENT

The information on this product is available in the ENOC Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information we recommend you review the MSDS. Handled correctly there are no special precautions suggested.
