

# ENOC VULCAN 3320 Special

### **PRODUCT DESCRIPTION**

**ENOC VULCAN 3320 Special** is a high performance, zinc free diesel engine oil, designed specifically for use in high and medium speed heavy duty automotive and locomotive diesel engines meeting API CF/CF-2 specifications and LMOA Generation 4 performance operating on high sulphur fuels > 0.7% mass.

# APPLICATIONS

- High speed stationary, Locomotive and marine turbocharged diesel engines
- Industrial power generation high speed diesel engines operating on high sulphur fuel
- Marine off-shore supply vessels using Detroit Diesel, GM EMD engines on high sulphur fuel
- Medium speed engines operating on high sulphur distillate fuel such as General Electric
- Particularly recommended for Caterpillar pre-combustion chamber engines

#### PERFORMANCE STANDARD

VULCAN 3320 Special meets and exceeds the following OEM and International specifications:

API	CF, CF-2
LMOA	Generation 4
GE	GEK-61435C
GM	EMD MI-1761D
Japanese	CD

*Always follow equipment manufacturer's recommendations for requ*ired lubricant performance levels and oil drain intervals.

## BENEFITS

#### VULCAN 3320 Special provides:

- Suitable for use in turbo-charged engines
- Excellent resistance to oxidation
- Reduced damage caused by high sulphur fuel
- Good detergent/dispersant qualities
- Neutralised acids in the process of burning high sulphur fuel

Technical Data*	
SAE Grade	40
Kinematic Viscosity	
mm²/s @ 40ºC	139.8
mm²/s @100ºC	14.66
Viscosity Index	104
Flash Point, COC, <sup>0</sup> C	254
Pour Point, <sup>o</sup> C	-15
BN No. ASTM D2896	20
Sulphated Ash %m	2.37
Zinc ppm by AAS	1
Product Code	200025

\*The information prepared provides the typical properties that are considered as r epresentative. Some variation which will not affect performance is possible

#### HEALTH AND SAFETY, ENVIRONMENT

The information on this product is available in the ENOC Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information we recommend you review the MSDS. Handled correctly there are no special precautions suggested.
